Collection Speed (< 120 days)	~90%
Repayment Frequency (< 14 days)	~90%
Arrears Write-off Policy	100 days non-performance

### NOTES

1. Investment returns are unaudited and calculated using the NAV unit price for respective classes (i.e. pre-tax, net of fees and costs) and assume reinvestment of distributions. The investment returns depicted in the graph are cumulative on A\$10,000 invested since inception assuming reinvested distributions. Past performance is not a reliable indicator of future performance.

2. The Loan Investment Summary table represents loans made by MoneySpot Finance Pty Ltd, a credit licensee and associated company of MSI Funds Management Limited, the responsible entity. The Fund lends money to MoneySpot Finance at an arm's length basis and at normal commercial terms. MoneySpot Finance on-lends those funds to thousands of consumers every month, as depicted in the chart above.

Unit Price where quoted is calculated using the gross assets less liabilities including fees, costs and the provision for distributions payable. Fund asset values have been calculated using unaudited data for the month being reported

Average Bad Debt is calculated by taking the previous 12 months average bad debt once any given month is fully collected. It generally takes 12 months for loans made in any given month to be fully collected and any outstanding loans referred for collection, written off or sold.

### DISCLAIMER

The Information in this document is current as at 31 May, 2022.

This document has been prepared by the management of MSI Funds Management Limited (MSI) (ACN 614 077 995), Responsible Entity of the MoneySpot Investment Fund (AFSL 491268).
